SUMMARY

Frontend Developer with over 2 years of experience, specializing in crafting responsive, user-focused interfaces using modern technologies like JavaScript, TypeScript, React.js, and Next.js. I have a strong track record of building and optimizing web applications and integrating state management tools like Redux and Zustand.

SKILLS

Languages: JavaScript, TypeScript (React.js & Next.js), HTML, CSS/SCSS
Technologies: React.js, Next.js, GraphQL, REST, Git and Git Actions
Soft Skills: Communication, Teamwork, Creativity, Code Ownership

WORK EXPERIENCE

Codmify

Kwara, NG

Software Engineer

08/2023 - Present

- Worked on diverse projects, including a billboard e-commerce platform, significantly increasing user acquisition and engagement.
- Integrated cutting-edge front-end technologies to create a seamless user experience, contributing to a 25% increase in user retention rates and elevating the app's overall ranking in the app store.
- Coordinated efforts between design, development, and product management teams, resulting in the adoption of a new project workflow that is now utilized by 8 team members, ultimately increasing project visibility and accountability.
- Conducted thorough testing and iteration on UI features that contributed to the overall modernization of the platform, leading to the successful launch of two major updates within a six-month period.
- Played a key role in the successful launch of several high-impact features, contributing to a 60% increase in customer satisfaction and retention.
- Utilized analytics and user feedback to iterate on designs, ensuring that the end products were not only visually appealing but also aligned with user needs and business objectives.

PROJECTS

HeasyResource. (Nextjs)

11/2023 - 12/2023

- Develop visually appealing and intuitive interfaces for easy navigation.
- Build interfaces to manage employee profiles, including personal info.
- Develop interfaces for posting jobs and facilitating onboarding.
- Develop interfaces for tracking employee leave and absences.
- Build a user-friendly portal for employees to manage personal info and request leave.
- Customize interfaces to provide insights into HR metrics.

Runelection. (Nextjs)

04/2024 - 08/2024

- Designed with intuitive navigation to make voting easy and accessible for all students.
- Providing immediate access to live election results, ensuring transparency and timely feedback.
- Utilizing top-tier encryption and authentication methods to protect the integrity and confidentiality of every vote.
